

# Third Wall Security Plugin

This is a powerful "lockdown" system, designed to protect your system further than anti-virus can.

## Base Config:

- ☒ Rename local admin account
- ☒ Disable Guest account
- ☒ Disable Microsoft accounts
- ☒ Enforce Password protected ScreenSaver (after minutes?)
- ☒ Disable UPnP
- ☒ Disable Autorun
- ☒ Disable Terminal Services (in)
- ☒ Disable exe from %appdata% (except for whitelist)
- ☒ Disable Windows 10 Keylogger
- ☒ Enhance logging - Log all logon and logoff events
- ☒ Monitor log clearing
- ☒ Alert on excessive logon failures
- ☒ Disable Office Macros from Internet
- ☒ Disable OLE in Office
- ☒ Disable "App Stores"
- ☒ Disable unused or deprecated network protocols
- ☒ Enable Windows Firewall
- ☒ Uninstall Blacklisted Applications

## Optional Config:

- ☐ [Restrict Local Administration Tools](#)
- ☐ Enforce User Access Control settings
- ☐ Enforce Logon Message
- ☐ Disable USB storage ( Write or Read/Write )
- ☐ Disable optical media ( Write or Read/Write )
- ☐ [Disable installers](#)
- ☐ [Disable common cloud storage](#)
- ☐ [Prevent Social Media access](#)
- ☐ [Prevent Public Webmail access](#)
- ☐ Scheduled secure free-space delete
- ☐ Ransomware Honeypot
- ☐ Alert on Unencrypted Disk (can be applied to laptops only)
